Information to be requested from all CA17104 participants:

	
Indicate your Working Group(s) in COST Action17104:	**WG1, WG3**
First Name:	**Elena**
Surname:	**Gazzano**
Department	**Department of Oncology**
Primary Institution	**University of Torino**
Address of Primary Institution	**via Santena 5/bis, 10126, Torino,Italy**
Other institutions	
Telephone:	**+390116705843**
e-mail:	**elena.gazzano@unito.it**

Expertise relevant for this COST Action:	Primary sample-derived cultures, stem-cell isolation and characterisation, 3-D cell culture, microfluidic and hypoxic cultures; oxidative stress assay; in vitro effects of photodynamic therapy.
Available facilities to conduct work, relevant for this COST Action:	Cell culture, microfluidic (lab-on-chip) and hypoxic cell culture facilities, fluorescence/confocal microscope, flow cytometry, Real Time PCR, FRET and PLA facilities, proteomics/ORBI-Trap, NGS, Animal Facility (mouse xenografts, syngenic mice), SPECT and MRI
Matherials/Methods that could be shared with other members of this COST Action:	MDR human cell lines from colon and lung cancer; doxorubicin-resistant human breast and osteosarcoma cell lines (different degrees of resistance); endoplasmic-reticulum stress resistant/MDR human colon, breast and osteosarcoma cell lines; primary stabilized cultures of chemoresistant mesothelioma and glioblastoma cells; cancer stem cells (glioblastoma, mesothelioma); human primary blood-brain barrier cells; set of specrofluorimetric/chemiluminometric assays for metabolomic analyses; set of immuno-oncology assays ex vivo and in vivo

NOTE: By submitting this form to the Grant Manager of CA17104, I agree that this information can be used within the scope of this COST Action (e.g. may be included on the webpage of CA17104).
