WG1 meeting and Open Bioinformatics Q&A

<u>WG1 member project activities:</u> the WG1 member project activities are planned as short, casual talks (approx. 10-15 min). No "formal" presentation is required, we plan to keep this part as an interactive session to show the current work-in-progress at the specific labs. The main idea is to get people interested to have virtual matchmaking discussions during the networking event. During this session many spontaneous small break-out rooms can be created by participants so that a virtual f2f chat is possible.

<u>Open Bioinformatics Q&A:</u> we will have several bioinformaticians to answer *any* question you may have and introduce advanced techniques.

<u>Networking event:</u> We have organized an online platform that allows spontaneous breakout rooms very much in the sense of tables at a real meeting.

The networking event and the Q&A will run in parallel.

Members of other WGs are invited also and may - depending on the time - have the opportunity to introduce their work also. WG1 members, however have priority.

The official agenda and platform will be announced in the near future

We kindly ask you to register (or indicate an MC substitute to take your place in the MC meeting) by Sun, June 20th by emailing to thomas.mohr@mohrkeg.co.at AND costaction.17104@unito.it. Please indicate whether you wish to attend the MC meeting (only MC members and relative substitutes), the WG 1 meeting or both.

The provisional programme can be found below:

09:00 – 10:30 MC Meeting

10:30 Welcome to WG 1 meeting

10:45 to 12:30 WG1 member project activities

12:30 to 13:30 Noon break

13:30 to 15:00 WG1 member project activities

15:00 to 15:30 Coffee break

15:30 to 17:30 Open Bioinformatics Q&A We will have several bioinformaticians to answer *any* question you may have and introduce advanced techniques

15:15 to 19:00 Networking event.

19:00 Close
